

Sample Property

Monday to Sunday · a real report reflects your own site and cameras

ALERTS THIS WEEK

128

About 18 a day. These are the moments the system flagged for a closer look.

EVENTS

14,200

Everything the cameras noticed.

INCIDENTS

0

None needed escalation.

CAMERAS

30

1 offline, 1 in maintenance.

After hours vs daytime

AFTER HOURS

55

DAYTIME

73

55 of the 128 flagged moments happened overnight, when the property should be quiet.

Cameras with the most alerts

Main Entrance	68
Lobby	15
Stairwell	11
Elevator A	10
Elevator B	8

Where overnight activity concentrated

1. Parking Lot	470
2. Main Entrance	450
3. Common Area	410

Busiest time

Activity was highest between 8 PM and 9 PM. A simple read on when the property is busiest, so you can schedule patrols or security when they actually matter.

Evidence and coverage

Snapshots saved this week	52
Kept as incidents	0
Cameras monitored	30

Activity insights. Activity this week was steadiest in the evening, with peak usage between 8 and 9 PM. After regular hours, the parking lot, main entrance, and common area saw the most activity. A still image is saved with every alert as evidence and kept for 90 days, so staff can show what happened without scrubbing through video.

This is what lands in your inbox every Monday.
